Yes, we are still in business as usual, but we have cut down on our shipments to once a week on Wednesday. You are still very welcome to order from us, and we sure hope that all of you are doing well in these difficult virus times. We hope, everybodys life will soon get back to normal. We wish you the best of luck, War Dog Militaria. Please, note that some orders that are shipped via Parcel Post can be delayed while in shipment due to the fact that the Postal Service sometimes waits for a full load to specific locations. Please, do not get surprised or worried because so far all the delayed packages have reached their final destinations. We have been in business for more than 40 years providing our customers with quality and reasonably priced genuine issue military surplus and real military collectables, specializing mostly in US militaria.

We have a wide range of military antiques and REAL Government Issue surplus NOT aftermarket from WWI, WWII, Vietnam, and Desert Storm through present. Our inventory is mostly composed of military items for the Army, Navy, Marine Corps, and Air Force. We have a large quantity of New Old Stock NOS US military items and some military treasures from Soviet Russia, Great Britain, and Germany. We add new military antiques and military surplus items to our web site SEVERAL TIMES A WEEK unless we are on a buying trip. So we can give the customer a rewarding shopping experience. If you do not see an item you are looking for, please ask us, as there is always a backlog of items waiting to be placed on our site. Check our site often. If you want to downsize your military collection or completely liquidate, we would be interested in purchasing from you genuine military items by the piece or a complete collection. Field Manuals FMs would continue to serve as the most comprehensive reference manuals in the new series. This regulation April 2015 prescribes Department of the Army policy for proper wear and appearance of Army uniforms and insignia, as worn by officers and enlisted personnel of the Active Army and the U.S. Army Reserve, as well as by former Soldiers. In addition to the updated regulation there is also the Uniform Policy Leaders Training which provides visual references to the updates. This publication implements DODD 6130.3 and DODD 6130.4. It provides information on medical fitness standards for induction, enlistment, appointment, retention, and related policies and procedures. This change implements policy to provide four methods for Reserve Officers Training Corps disestablishment voluntary, contract, Effective Management Program, and Program Efficiency Closures. Chapter 22 outlines the military service obligation for Active Duty Officers. The time served in uniform out of the total 8 year commitment is based off of scholarship or nonscholarship. It is the basic reference for training security personnel. It is intended to be a "onestop" physical security source for the Department of Defense DOD, the Department of the Army DA, and other proponents and agencies of physical security. The goal of Whole Building Design is to create a successful highperformance building by applying an integrated design and team approach to the project during the planning and programming phases. Disclaimer. Please click here if you are not redirected within a few seconds. It covers the types of rigging and the application of fiber rope, wire rope, and chains used in various combinations to raise or move heavy loads.

FM 627 provides operational and legal practitioners of the Army and Marine Corps an invaluable tool to help guide land forces in conducting disciplined military operations in accordance with the Law of Armed Conflict LOAC. That clarity will contribute to increased and more timely compliance with LOAC, the part of international law that regulates the conduct of hostilities and the protection of war victims. The principal audience for FM 627 is Army and Marine Corps commanders as well as Army and Marine Corps judge advocates. Commanders and staffs of Army and Marine Corps headquarters serving as joint task force or multinational headquarters will still need to refer to applicable joint or multinational doctrine. FM 627 is an official publication of the U.S. Army and a referenced publication for the U.S. Marine Corps, and is tailored to land forces. Thus, it does not necessarily reflect the views of, nor does it apply to, the U.S. Navy, U.S. Air Force, or the Department of Defense DOD as a whole. FM 627 is not intended to replace or compete with the DOD Law of War Manual, although the topics addressed in FM 627 are also addressed in the Manual. In the event of a conflict or discrepancy regarding the legal standards in FM 627 and the DOD Law of War Manual, the latter takes precedence. If an apparent conflict or discrepancy is found, it is likely due to FM 627's efforts to provide clear and concise guidance to Commanders and legal practitioners by describing legal concepts more generally rather than exhaustively as found in the DOD Law of War Manual. FM 627 does this by drawing from treaties to which the United States is a party, customary international law, the DOD Law of War Manual, and other references describing longstanding U.S. military practice. It also draws from the first comprehensive U.S. military regulation of LOAC, prepared by Professor Francis Lieber, and approved by President Lincoln in April 1863 in General Orders Number 100.

Disarm the enemy and turn them over to your superiors. As noted above, FM 627 is a project that has spanned over 20 years. As such, it involved the efforts of many dedicated judge advocates, Soldiers, Marines, and civilian employees. Though their names will not be found anywhere in FM 627, this project would never have been successfully completed without their significant

contributions. The President is forcing me to stop. Revenge Strikes Scrutinizing Iran and U.S. Uses of Force under International Law by Geoffrey S. Corn and Rachel VanLandingham, Lt Col, USAF Ret. It had neither studied them, nor developed doctrine and tactics to deal with them. The result of unprecedented collaboration among top U.S. military experts, scholars, and practitioners in the field, the manual espouses an approach to combat that emphasizes constant adaptation and learning, the importance of decentralized decisionmaking, the need to understand local politics and customs, and the key role of intelligence in winning the support of the population.

The manual also emphasizes the paradoxical and often counterintuitive nature of counterinsurgency operations sometimes the more you protect your forces, the less secure you are; sometimes the more force you use, the less effective it is; sometimes doing nothing is the best reaction. The University of Chicago Press will donate a portion of the proceeds from this book to the Fisher House Foundation, a private/public partnership that supports the families of America's injured servicemen. The title is Min Bay Do Viet Cong, Mines and Booby Traps used by the. Of all the armed services, the Army cares most deeply about doctrine as an authoritative description of the fundamental principles guiding its actions. The new manual includes a scant eight-page section on operations other than war, which discusses, among other subjects, peacekeeping, counterinsurgency and the many tasks that often absorb the Army's attention day today. One can safely predict that the next version will contain far more on this subject. Indeed, one suspects that this will come to be seen as a transitional document, pending a major reconsideration of what the Army does and why it exists. Loading. Sure, they have some of the classics, a few self-improvement books, and maybe a couple of history books, but U.S. Military field manuals are notably absent. They train, equip, transport and support our troops all around the world. One thing that doesn't always come to our attention, however, is that the U.S. Military is one of the largest educational institutions in existence. They distill this knowledge into simple and easily comprehensible field manuals. Repetitions, acronyms, and other learning hacks are sprinkled throughout these field manuals. They even have written tests occasionally pop up. Of course, the field manuals can't replace experience, but they can give you valuable knowledge. If you do want

the firsthand experience, you can head over to your local military recruiter. He'll be more than happy to help you find the military experience you're looking for. It covers all the basics of surviving in adverse conditions. Fire, water, food, shelter, selfdefense, medical and navigation are all addressed. The manual includes a plethora of other information that could come in handy. It explores the correct mentality you need to have in order to survive. This is probably the best survival manual on the market and in true field manual fashion, it is broken down into simple terms and contains no fluff or filler.
